Final screening decisions
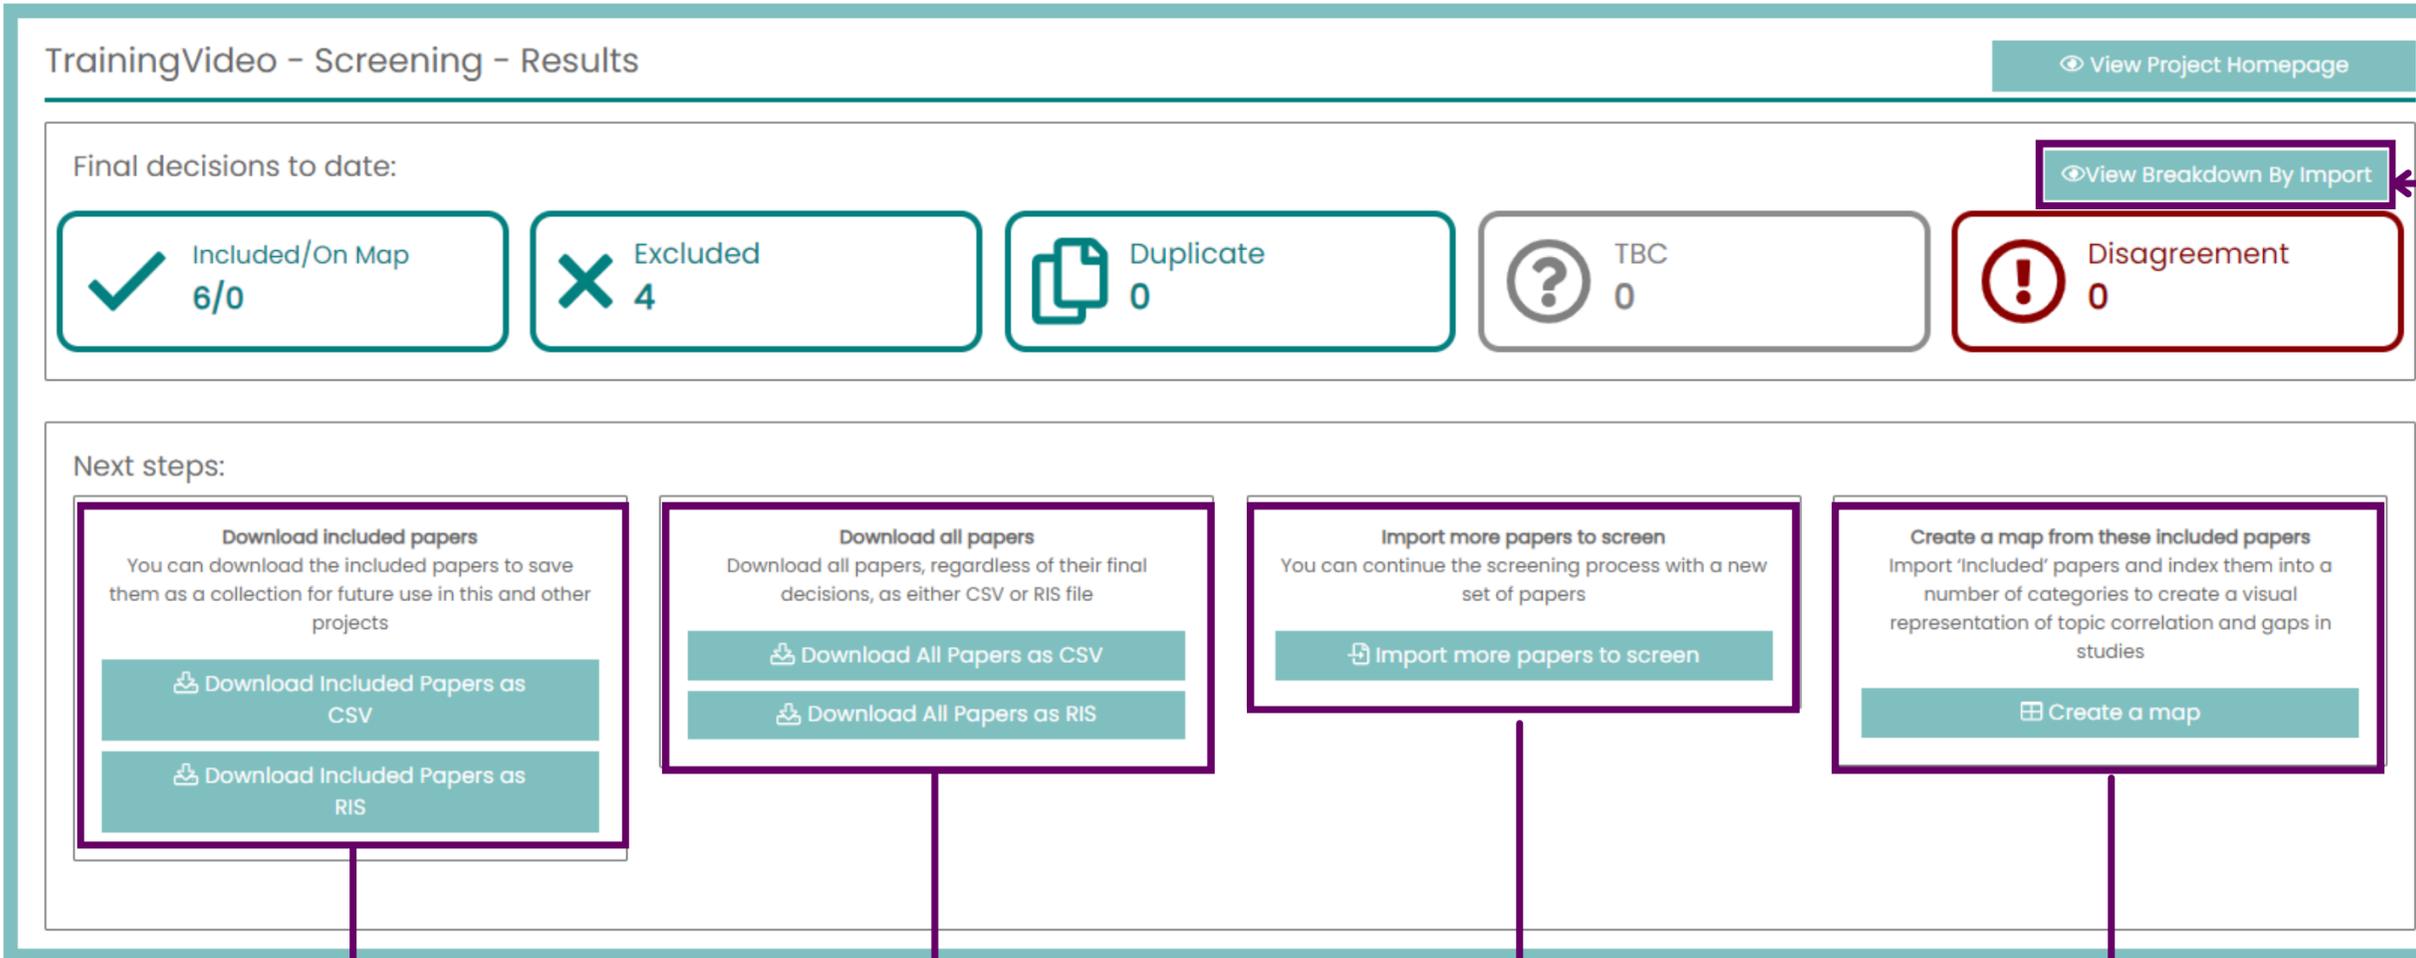

In the final step (step 6) of the screening process, you will be displayed with the results of your screening.

TrainingVideo – Screening – Results

View Project Homepage

Final decisions to date:

View Breakdown By Import

| ✓ Included/On Map 6/0 | ✗ Excluded 4 | Duplicate 0 | ? TBC 0 | ⊘ Disagreement 0 |

You can view a breakdown of the decisions by import. Click "Hide Breakdown" to revert to the original view.

Next steps:

Download included papers
You can download the included papers to save them as a collection for future use in this and other projects

⊾ Download Included Papers as CSV

⊾ Download Included Papers as RIS

Download all papers
Download all papers, regardless of their final decisions, as either CSV or RIS file

⊾ Download All Papers as CSV

⊾ Download All Papers as RIS

Import more papers to screen
You can continue the screening process with a new set of papers

⊞ Import more papers to screen

Create a map from these included papers
Import 'Included' papers and index them into a number of categories to create a visual representation of topic correlation and gaps in studies

⊞ Create a map

On this page you have several options for your next steps.

- You can download only the included papers as a CSV file or an RIS file.

- You can download all the papers in the same formats as well.

- You can add more papers to be screened.

- From the included papers you can begin to create a map.
