View a map in the Evidence Mappe

On the project homepage select "View Map".

Please speak to the Project Manager if cannot see this option.

You will then be presented with the Evidence Map for that project, along with the filters to view papers based on your needs.

| First category * Study Type | | Secondary category Interventions | | Filter by tag Interventions | | Filter by tag | al ventilation 🗙 | |] |

At this stage, you can export the list of citations in several formats (.csv file, .ris file, image file). You can also select individual sections and view the citations for the selected studies.

When viewing the selected references, you have the option to switch from full view to table view.
